The Degradation of Tuan Has Been Officially Confirmed.

THE CHINESE SITUATION

Minister Conger Reports to the State Department Regarding the Peace Commission.

Germany Is Inclined to Regard the Degradation of Tuan as a Chinese Sham.

Washington, Oct. 2.—Official confirmation of the degradation of Prince Tuan and his colleagues has been received at the state department, so that there is no longer any doubt of Sheng's statement on that point. From Canton Consul McWade reports that the emperor blames his ministers for the whole trouble and orders Tuan, Kang Yi and other officials degraded and punished by imperial courts. The emperor holds Tuan and others entirely responsible for bloodshed. Regarding the appointment of the China peace commission forecasted by Minister Wu's advice several days ago, the state department has received the following official confirmation in a dispatch from Minister Conger:

"Peking, Sept. 27.—Secretary of state, Washington: Have received notice today from Prince Ching that he, Earl Li, Yung Lu and viceroys Tin Kun Yei and Chang Chih Tung will act in concert in negotiations for peace. Yung Lu is in the interior. Li Hung Chang is at Tien-Tsin. CONGRER."

Mr. Wu, the Chinese minister, has received official confirmation of the issuance of an imperial decree degrading Prince Tuan, Kang and other officials for their course in regard to the recent troubles in China. This information agrees with that contained in the dispatch received from Consul McWade at Canton.

The minister has heard nothing of the designation of officials reported by Minister Conger to act in concert in peace negotiations, but he has no doubt it is correct.

THE OTHER SIDE

"Father" Clark Talks of the Ultimate Effect of Uprising.

Boston, Oct. 2.—At the Congregationalist ministers' Monday meeting yesterday the principal speaker was Rev. Francis E. Clark, D. D., president of the United Society of Christian Endeavor, whose subject was "Losses and Gains From the Uprisings in China." Dr. Clark, who has visited several mission stations in north China, where the massacres later occurred, said in part:

"The dragon's teeth of war and massacre were sown by the foreigners who had come in the spirit of commercial greed to push their conquests. Turn the tables for a moment and imagine China forcing her goods upon us at the point of a sword, sending her opium here to debauch our youth and compelling us to buy it, seizing the whole state of Massachusetts because of two Chinamen murdered by a mob, and we can imagine some of the feelings which animated the Boxers or the more intelligent powers behind the Boxers.

"An heroic chapter of missionary annals has been written, a chapter whose records can never be dimmed. The native convert has proved himself worthy of the Savior who died for him. The taunt of 'rice Christians' can no longer be thrown in his face. China has been awakened from her sleep of ages. She can never again fall back

"I'm Ashamed"

To go anywhere with my face in this condition," is the expression of a very natural feeling. To a beautiful woman an eruption on the face is the greatest calamities, her very beauty seeming to increase the disfigurement. Ninety-eight times in every hundred, eruptions are cured by Dr. Pierce's Golden Medical Discovery, and the skin recovers its maiden bloom and softness. "Golden Medical Discovery" is a medicine which acts directly on the blood, purifying it, increasing its quantity and its richness. Eruptions, blotches, pimples, etc., are but surface signs of the corrupt blood current underneath. "Discovery" cleanses the blood, and so cleanses the skin.

"For about one year and a half my face was badly broken out," writes Miss Carrie Adams, of 105 West Main St., Battle Creek, Mich. "I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured."

Dr. Pierce's Pleasant Pellets keep the bowels in healthy condition.

into the same comatose conditions as before. A trumpet call has been issued to the Christians of America and Great Britain to go in to possess the land, to see to it that their comrades have not died in vain, and that the blood of the martyrs has not been spilled for naught. The regeneration has begun in the dark and troublous days that close the Nineteenth century. The new century about to dawn will see a long step taken toward the complete regeneration of the land of Confucius."

France Has a Plan.

Vienna, Oct. 2.—The Austro-Hungarian foreign office has received a circular note which France has addressed to the powers in which she agrees as to the necessity of obtaining satisfaction for the anti-foreign attack, but suggests that the ministers in Peking should immediately begin negotiations on the other questions at issue. The note also proposes the permanent prohibition of the import of arms and ammunition into China, the raising of the fortifications between Peking and the sea and the maintenance of legation guards.

Berlin Denies It.

Berlin, Oct. 2.—The statements published in Paris that France, Russia and Germany have arrived at a complete understanding in regard to the retention of troops at Peking and that Germany abandons her demand for the punishment of the instigators of the outrages before the peace negotiations begin is denied here officially.

Fire in Chicago.

Chicago, Oct. 2.—Fire broke out tonight in the six-story building, 201-203 Market street, and before it was extinguished did \$4,000 damage.

IMPORTANT DECISION

Ah Sing Was Permitted to Land Under Judicial Ruling.

Honolulu, Sept. 24, via San Francisco, Oct. 2.—United States Judge Estee has rendered an important decision regarding the rights of Chinese to land in Hawaii. It was in the case of Ah Sing, who came here from New York as one of the crew of the ship Challenger and was refused permission to land in Honolulu.

The judge decided that having shipped from New York the Chinese had a right to land in any other American port, and Honolulu is now an American port. The decision is regarded as highly important as bearing upon the question of whether the many Chinese in the Hawaiian Islands have a right to land on the mainland. A clause in the Hawaiian territorial act declares that the Chinese in Hawaii shall not be admitted to the coast of the United States. This clause is believed by some to be unconstitutional and the decision of Judge Estee is in line with that opinion. There are about 20,000 Chinese in Hawaii.

Cubans Affiliated With Bryan.

San Juan de Porto Rico, Oct. 2.—The federal party has passed resolutions affiliating itself with the Democratic party in the United States. A cablegram from William J. Bryan and James K. Jones, chairman of the national Democratic committee, urging harmony, was read. Munoz Rivera made a speech in which he opposed the administration on the ground that the Foraker bill is unsatisfactory and that the Porto Ricans desire a more independent form of government. The session will last several days and the delegates will nominate a commissioner for congress.

"Little Town" Election.

New Haven, Conn., Oct. 2.—Yesterday was "town meeting" day in Connecticut, 162 of the 168 towns in the state holding "the little town" elections for the purpose of choosing officials for the town governments and settling for the coming year the liquor license question. The towns and cities not participating in these little political contests are Hartford, New Haven, Bridgeport, Ansonia, Derby and Naugatuck.

Their Punishment Sufficient.

Columbus, O., Oct. 2.—It is said that the Adams Express Company will re-instate all the employees who were dismissed immediately following the murder of Express Messenger Lane and the robbery of an express safe by Rosslyn Ferrell for violation of the rules in carrying friends with them in the express cars. The punishment of the offending employees will be equivalent to 60 days' suspension.

Fatal Passenger Wreck.

Ottumwa, Ont., Oct. 2.—A passenger train on the Charlton and Indianola branch of the Burlington was wrecked last evening, presumably by a rail turning. B. R. Welcher of Milo, Ia., was killed and a number injured, among whom were Roy A. Culbertson, Danvers, Ill.; C. M. Buchanan, Fairfield, Ill.; and James Kersey, Amos, Ind.

Startling Testimony.

Cleveland, O., Oct. 2.—The star witness thus far in the council bribery investigation was on the stand yesterday. He is W. H. Boyd, the attorney who represents the Chicago Municipal Signal company, and the testimony he gave startled even those who were hazy before the contract for the police signal system for the Gamewell company the fact would not be exposed.

Bold Diamond Thief.

Decatur, Ill., Oct. 2.—Mrs. Peter Vredenberg, Jr., daughter of Dr. T. S. Haskins of this city, was robbed of \$500 worth of diamonds and jewelry at Springfield last week.

IS BADLY TIED UP

Big Coal Strike Assuming More Complicated Proportions.

STRIKERS REMAIN FIRM

Additional Offers of Increase of Wages Are Met by a General Refusal Throughout.

More Collieries Now Tied Up Than at Any Time Since Strike Was Inaugurated.

Philadelphia, Pa., Oct. 2.—The mine operators of the Wyoming, Lackawanna and Lehigh regions at a meeting at Wilkesbarre followed the action of the Reading company in offering an increase of 10 per cent in wages to the mine workers. They furthermore decided to reduce the charge for powder from \$2.75 to \$1.50 per keg. The latter price has prevailed at the Reading company's mines for a long time. The meeting was attended by representatives of all the leading railroad companies which own mines in the region named.

The strikers, however, show no indication of accepting the offer. None returned to work at the Reading company's collieries in response to the notice of higher wages, and in fact many who had been at work there quit and joined the ranks of the strikers. As a result there are now fewer collieries in operation in the Schuylkill region than at any time since the strike was inaugurated.

In the other regions there was also additions to the strikers' forces. Notices of the increase in pay have been posted throughout the entire anthracite region, but the opinion is general that few if any of the strikers will return to work. The strikers say they have other grievances to be adjusted besides wages and powder charges and they further say that they want recognition of their union.

MITCHELL IS FIRM

There Will Be No Resumption of Work Without His Consent.

Hazleton, Pa., Oct. 2.—Notices of the increase in wages and the reduction in the price of powder decided upon by the operators at Wilkesbarre were posted last night at all of the collieries in the Lehigh region.

President Mitchell, when shown a copy of the notices, declined to say anything, but intimated that he might outline his position later. He added, however, that there would be no resumption of work until a convention of the anthracite miners had been called and the proposition considered. Panther Creek valley, in Carbon county, is now the objective point of the strike leaders. The Lehigh Coal and Navigation company operates a number of big collieries there, all of which have been working undisturbed since the mine-workers' strike was inaugurated. A branch of the United Mine Workers has been formed at Coaldale by Organizer Benjamin James, who expresses himself as sanguine of success in closing down the operations. Organizer James informed President Mitchell that he anticipated a complete suspension of operations in the valley by the end of the week. The increase of 10 per cent in wages announced by the Philadelphia and Reading Coal and Iron Company had no effect on its striking employees unless it was to strengthen their determination to remain firm.

The advance was to have become operative yesterday, but not a solitary striker throughout the region reported for work at any of the Reading company's collieries. On the contrary the tie-up was extended to the Pottsville and Minersville districts, and of the 39 collieries operated by the Philadelphia and Reading Coal and Iron Company only four worked.

The twelfth regiment, with the exception of one company, left for home yesterday. The remaining company will depart as soon as the tents are dry enough to be packed.

Will Take It Into Account.

Wilkesbarre, Pa., Oct. 2.—Coal operators at their meeting yesterday afternoon decided to offer striking miners of the Wyoming valley a net advance of 10 per cent on wages heretofore paid and to take up with their employees any grievances which they may have. Powder will be sold to miners at \$1.50 a keg, but the difference between this rate and the old rate of \$2.75 a keg shall be taken into account in figuring the net 10 per cent advance.

Interesting the Foreigners.

Altoona, Pa., Oct. 2.—Edward McCay, national organizer of the United Mine Workers, accompanied by an interpreter, is at work on the foreign element in this district inducing them to join the miners' organization. It is a fact that a comparatively small proportion of foreigners are members of the United Mine Workers.

Another Strike Threatened.

Harrisburg, Pa., Oct. 2.—Notices have been in the various departments of the Logan Iron and Steel Works at Burnham, Mifflin county, of a reduction of 25 per cent in wages. There is great dissatisfaction among the 3,000 employees and a strike is threatened.

Bridegroom of Less Than a Week Charged With Bigamy.

Danville, Ind., Oct. 2.—D. B. Mase of Mattoon, Ill., was arrested here on a charge of bigamy, and he is now in jail in default of \$800 bond. Last Wednesday afternoon he was married to Miss Sadie Stapp of this place, and they immediately left on a wedding tour, returning Sunday afternoon. In the meantime one of her brothers heard that Mr. Mase had a wife living at Mattoon and he went there to investigate. He found the woman, who, for the first time, was surprised of the desertion of her husband. Stapp then returned to this city, bringing with him the marriage license of Mase and his former wife, the wedding occurring in 1887. The accused refuses to talk on the subject, except to say that he is innocent. The bride is a highly respected young woman, a daughter of Mr. and Mrs. James Stapp, and a member of the Friends' church. She is prostrated over the affair.

UP TO THE DENTIST

Mystery of the Severed Human Head at Crown Point Grows Deeper.

A SILVER TOOTH PLATE

To Which Are Wired Two False Incisors Form the Only Tangible Clue to Identity.

An Indiana Murder Mystery Which Bids to Outrival the Gulden-suppe Case.

Crown Point, Ind., Oct. 2.—A silver tooth plate to which two false incisors of the upper jaw were wired, is the only clue to the identity of the severed head that was found tied in a grain sack in Cedar Lake, six miles from this city.

Identification of the victim of the supposed murder by reason of the head, is absolutely impossible, so far as recognizing the features is concerned, because the head was packed in quicklime before being thrown into the lake, and the features were destroyed by the action of the chemical. The only hope of getting a clue to the mystery is that the dentistry work may be recognized by some dentist.

The head bids fair to furnish a murder mystery as famous as the Gulden-suppe case in New York.

AGAINST HORSE THIEVES

National Convention of Detectives in Session at Greenfield.

Greenfield, Ind., Oct. 2.—The first national convention ever gathered in this city is now in session here. Over 400 delegates of the National Horse Thief Detective association are in attendance at the annual national gathering of the association. The visitors were last night formally received at the Grand opera-house. The Rev. F. M. Stone delivered the invocation. Mayor J. F. Egan welcomed the delegates, and there was a response by S. D. Anglin, president of the association. There were also readings by L. O. Harris and Henry Snow, followed with miscellaneous addresses by citizens, and the benediction by the Rev. B. F. Dally. The crowd is so large that all can not be accommodated at the hotels, and private citizens have thrown open their doors for their entertainment.

REPUBLICAN POLICY.

1896.—OPEN THE MILLS.

1900.—KEEP THEM OPEN.

THE laboring men remember the trying times for three years prior to the election of McKinley and will vote to prevent the return of such hardships. They will not experiment with Bryan.

BRYAN is coming to Indiana this week, then he goes to New York. When he is in Indiana trusts will be the principal theme, and in New York it will be imperialism. We know that will be his plan for that is the demagogical plan.

THE Columbus Herald in speaking of the parade when Marion Griffith spoke at Columbus said that there were 350 in line and 253 of them by actual count would vote the democratic ticket. A question arises about the 77. Are they among the doubtful? Was the Herald crowd, which has been against Griffith all the time, listed with the 77 or the 273?

CAPT. KEENE, who as a soldier has seen service in Cuba and is there now, writes to his home at Ft. Wayne that he is for McKinley, though previously a democrat, his father being a democratic office holder at Ft. Wayne now. He thinks it the duty of patriots to support McKinley and rebuke the party that is lending aid to Aguinaldo. He is writing letters to his friends in the states.

A MAN who lives a few miles south east of Seymour dropped into the REPUBLICAN office Monday and said he had worked more days and at better wages the present summer and fall than during any previous season. He said that he had been getting a dollar a day and board right along and his money was ready every night if he wanted it. He further stated that four years ago he voted for Bryan, but would vote for McKinley this year. A vote for Bryan, he said, was a vote against his own interests.

MR. BRYAN announces with much flourish that if he is elected president he will not ask a second term. He thinks it highly improper for the president of this country to ask a re-election. In other words Bryan would give the people of America to understand that George Washington did not do the right thing in seeking a re-election, that Jefferson and Monroe were exceedingly unwise, that Jackson was a small fry statesman, that Lincoln and Grant and Cleveland were statesmen built on a smaller pattern than he. But such is the Bryan character.

It would have been better for Bryan if he had made his campaign on the free silver issue again. He would have been defeated, to be sure, but the people would still believe him sincere. The trend of political events during the last ninety days has caused the people to lose faith in Bryan's political honesty. He insisted on the free silver plank in the Kansas City platform, but now refuses to state in his former straight forward style whether or not he would pay coin bonds in silver. He started by claiming that imperialism was the chief issue, now he leads his hearers to believe that the trust question is paramount. In the estimation of the people Bryan has not grown during this campaign.

POLITICAL BREVITIES.

Governor Taylor, who should now be serving as the chief executive of Kentucky, will speak at the opera house tomorrow evening. Hear him.

John M. Lewis spoke at Brownstown last night under the auspices of the Brownstown McKinley and Roosevelt Club. The court room was crowded, it being the largest political meeting held at Brownstown this year. Mr. Lewis was at his best and made a ringing republican speech which brought forth storms of applause. The republicans at Brownstown are in the campaign in earnest and are doing effective work.

Hon. Anderson Piercefield, of Nashville, who recently renounced Bryanism, is out making speeches for the republican ticket.

The Powell marching club held a business meeting last night after which they marched over a good portion of the city, led by their drum corps. They released some pent up enthusiasm and stirred up others along the way with their shouts for McKinley.

MR. BRYAN'S LETTER

Free Silver Not Merely a Reminiscent Doctrine.

EXPOSURE OF HIS PURPOSE

And an Analysis of His Purely Deceptive Arguments.

Pretense That Limited Coinage Under Present Laws is a Confession of the Soundness of Free Coinage Fully Exploded—Intellectual Fiber and Dangerous Character of Bryan Revealed in His Appeals to Ignorance, Passion and Class Feeling.

If there are any gold Democrats who are under the impression that the free silver doctrine is merely a reminiscence kept in the Kansas City platform for consistency and campaign purposes, and is not a menace to the prosperity of the country, they should find enlightenment in Mr. Bryan's letter accepting one of his nominations for the presidency. He is still determined to bring about the unlimited coinage of silver at the ratio of 16 to 1, and he evidently hopes, and without reason, that if elected enough state legislatures will be carried by his party to enable him to put his policy into operation. His purpose and the energy with which he would use the great power of the executive office to accomplish it is unmistakably revealed in his declaration: "Whether the senate, now hostile to bimetalism, can be changed during this campaign or the campaign of 1902 can only be determined after the votes are counted, but neither the present nor the future political complexion of congress has prevented or should prevent an announcement of the party's position upon this subject in unequivocal terms."

His arguments in behalf of free silver are of the usual deceptive kind. He pretends to think that international bimetalism, under which silver would have a standing in the commerce of the world, is the same as free coinage, under which the United States would be coining dollars which its own citizens would have to take at twice the value they would pass for in any other country. He pretends also to see in the limited coinage under existing law by the Republicans of the silver in the treasury a confession of the soundness of the 16 to 1 principle. Yet he knows that the present silver dollars, limited in number and kept by exchange on a par with gold, are merely token money, and their issue no more concedes that unlimited quantity of 412½ grain silver pieces would be honest dollars than that any piece of paper the size and quantity of a dollar bill would be an honest dollar if the law allowed anybody to take teams of it to the government printing press and get it back with the dollar stamp. Mr. Bryan might as well argue that the Republicans concede a demand for unlimited coinage on a bronze standard because they issue cent pieces which are intrinsically worth about an eighth of a cent.

On other topics Mr. Bryan shows himself as usual the politician intent on making points with adroit evasions and catch phrases. Nothing else so clearly reveals the intellectual fiber and dangerous character of the man as this tendency at every turn to inject into his argument appeals to ignorance, passion and class feeling. His threadbare figure of crucifying mankind on a cross of gold turns up in different forms. He can not argue that an income tax is a proper and equitable method of raising revenue without availing himself of the demagogic trick of assuming that by it alone in the hour of danger can the government draft the pocketbook as well as the person, and then indulging in this cheap pandering to class jealousies: "Unless money is more precious than blood, we can not afford to give greater protection to the incomes of the rich than to the lives of the poor." He deals with the trust question in the same glib and specious fashion. The problem of concentration of industrial enterprises under modern conditions is an intricate one, but he gives it no consideration worthy of the name. He is as ready to cure the undoubted evils of trusts with ready made nostrums applied at random as any quack at a county fair is to treat all diseases on sight. The fact that he may do infinite harm by recklessness and plunge the country into panic and stop great industries does not trouble him in the least, if he can get fees for his prescriptions from the empty headed in the shape of votes.

When he comes to talk of his paramount issue he avoids carefully the most important constitutional question raised in his platform, and likewise the most important question everywhere asked concerning his future policy: Will he at once bring the troops home from Manila and leave Aguinaldo to impose his rule on friend and foe among the natives? He does not answer. How he will give the Philippines a stable government of their own he will not tell. What right he has, while proclaiming that we have no business in the Philippines at all, to plan for a protectorate over them he does not say. He merely argues that we can maintain a protectorate without difficulty or expense, and distorts the Monroe doctrine by assuming that it means a protectorate over the American republics, whereas no suggestion is more resented by these republics than that. For our own safety we have declared that European nations must not annex territory here, but we have never exercised the least oversight of our neighbors. The establishment of a stable government, with a guarantee to protect it, is something entirely different. The constitutional question avoided by Mr. Bryan is his party's principle that no constitution extends to Porto Rico, and, of course, therefore to the Philippines. Yet he urges that the Philippines be treated

as a foreign land. He must himself see his inconsistency, for it has frequently been commented upon, but he has no time to reconcile his miscellaneous collection of grievances and nostrums. His purpose is merely to catch votes, and no trick of argument is too specious for his use.

Crothersville Chronicles.

CHAPTER III.

Now at the going down of the sun on the third day of the week, came the rabble with sounding brass and tinkling cymbals and crying with loud voices, "Long live our Moses, he of the paramount issue, for he will surely lead us out of the wilderness." And they went out into the highways and byways and invited the people to the place of the departed spirits, but they came not. And they fell upon William whose surname is Howherd and spake unto him saying, come out from among the Lincolnlites lest you be cast under the furnace among the staves. But William stiffened his neck and answered them saying, I called unto you and ye knew me not, I heartened unto you and you left me in lamentation, depart from me. I have received succor. And the faithful again gathered themselves together at the place of departed spirits and they counseled among themselves saying, woe unto the generations to come if our paramount issue is cast out. And behold one Charles, who is a dealer in purple and fine linen and an inhabitant of the city far beyond the Muscatuck, spake unto the faithful saying, be of good cheer for good news cometh from the far seas, for if he of the Tagal is for us who can be against us, and they said, it is well. And behold John came not and the lot fell upon George. And a murmur arose among the tribe of Rankatites and they grumbled saying, we knocked and ye opened not, but George appeared their wrath and peace reigned. And a voice arose in their midst saying, what meaneth all this outcry from the east and from the west from lovers of much gold? Who shall arise from our midst and appease their wrath lest they join the Lincolnlites? And being much concerned but of little speech, they all kept silent for the space of many minutes, and were greatly perplexed. And again a voice was heard saying, let us cast aside our issue and let us forbear and send out an injunction that our sect may not be put to rout. But a sepulchral voice answered, nay, injunction is a stench in the nostrils of a follower of the paramount issue, and they answered with one accord, Amen.
